## Dictator Plays False and Makes Counter Proposition

Huerta, Fearing Loss of Prestige at Home, Informs the United States That He Will Salute American Flag if Our Guns Will Boom Forth Simultaneously — He Is Told That Such An Apology Will Not Be Accepted — Battleships Go On To Back Up Demands

By Associated Press.

Washington, D. C., April 17.—Huerta has parleyed again. He demands that his salute to the United States flag shall be returned simultaneously, gun for gun. This President Wilson is practically certain not to accept. The latest hitch at the eleventh hour, when officials here expected that the situation was as good as closed, was described in dispatches from O'Shaughnessy. Wilson discussed it with the Cabinet officials. Administration men said privately that Huerta's counter proposition would not be accepted. The developments of the conference bore out the fears of those officials who expected Huerta would equivocate again.

Any intention of recalling any of the battleships now on their way to Tampico, has been abandoned. Those close to the administration expect President Wilson's demand for an apology to be backed up by the fleets.

The text of O'Shaughnessy's dispatches was not made public but it became known that Huerta's latest proposal was that as his guns fired a salute to the stars and stripes, as an apology for continued affront to the United States, particularly the recent arrest of marines at Tampico, that the guns of the American fleet should reply simultaneously, gun for gun.

Officials here were ready to acknowledge Huerta's salute of 21 guns, after it had been finished, with a return salute, such as is described in naval customs and practices. That would be merely acknowledging and "amend honorable". But to return the salute gun for gun, they pointed out, would make the apology valueless.

Officials discussed Huerta's latest move as an act to preserve his own dignity before the Mexican people in that part of the country under his control. While President Wilson and the Cabinet will decide what shall be done, the opinion was expressed freely in official circles that nothing but an official apology and such a salute as the United States demands, would be acceptable now. When the Cabinet adjourned, Secretary Bryan still described negotiations as "encouraging but not final". "I have received one message from O'Shaughnessy and have sent one in reply," he said. Secretary Bryan left the Cabinet while it was still in session to go to the State department and send some dispatches.

It is understood that word has gone back to Huerta that a simultaneous salute would not be accepted, and that O'Shaughnessy has been instructed that the United States would insist on its demands as made. Officials expressed their views that Huerta had been listening to "bad advice" during the last 12 hours, and that after he had promised O'Shaughnessy yesterday that he would give the apology. Members of the Cabinet state that Huerta had been informed that no simultaneous salute would be acceptable to the United States.

Secretary Bryan finally instructed O'Shaughnessy to in-

## THE UNEMPLOYED SPURN GEN. COXEY

By Associated Press.

Canton, Ohio, April 17.—Fifteen recruits made up the rank and file of Gen. Jacob S. Coxey's army of unemployed, which fell into line and started at 9 o'clock this morning. A large crowd saw the general's aides assemble the army from Socialist Hall and near-by saloons to make the start.

A corps of five fifers, organized by Lieut. Anderson, was at the head of the procession. Eleven year old David Coxey, son of Gen. Coxey, and courier for the army, headed the line on a Shetland pony. None of the 100 or more high school boys

who marched with the army from Massillon yesterday put in an appearance this morning. The recruiting officer worked late last night scouring the brick yards and railroad tracks in an effort to sign up more recruits. He said 28 men had agreed to march today, but only half of them put in their appearance.

While members of the army curled up on benches or on the floor in Socialist Hall last night, Gen. Coxey and his son were quartered at one of the best hotels in the city. Gen. Coxey is confident the number in his army will soon increase and says that he has no intention of giving up his march to Washington.

form Huerta positively that the United States will accept nothing less than a salute of 21 guns, and that the American ships will reply afterwards.

Officials have learned that Rear Admiral Mayo's demand was for a salute "which will be returned by this vessel".

President Wilson has changed his plan to go to White Sulphur Spring tonight and will go tomorrow.

Orders for assembling a regiment of marines at San Diego for Mexican service were countermanded.

Mexico City, April 17.—Jose Lopez Portillo y Rojas, Mexican Foreign Minister, said at noon today he believed the controversy between United States and Mexico would be adjusted before night.

## WEDDING DATE SET

Washington, D. C., April 17.—President Wilson and wife announced today that the wedding of their youngest daughter, Miss Eleanor Randolph Wilson, and Secretary McAdoo will take place on Thursday, May 7.

## GLASS EYE EXPLODES; MAN ESCAPES INJURY.

Huntington, W. Va., April 17.—While he was reading, the glass eye of M. C. Canterbury, a farmer residing near here, exploded. Canterbury was not injured, although the eye was shattered. Canterbury was leaning over his paper when, with a loud report, his artificial eye burst and a shower of glass fell on the paper. The explosion was similar to that of an electric light bulb. Glass eyes, like incandescent lights are made with a near vacuum. Just what caused the explosion none could explain.

## APARTMENT HOUSES BURN AND MANY DIE DIED IN AUTO

By Associated Press.

New York City, April 17.—A fire that swept through a five story apartment house at 741 Eighth Avenue early today, claimed eleven victims and resulted in serious injury of many others.

Only four bodies taken from a theatrical boarding house occupying half of the building, could be identified. All the other bodies were charred beyond recognition. The identified are William Wallace, 46; Mrs. Nellie Wallace, his wife; Mrs. Nellie Spences, a cloak model; Mrs. George C. Davis and Muriel Davis, aged 3.

The fire started in a pile of waste in the basement of a five and ten cent store which occupied the ground floor of the building. All of the dead and injured were taken from rear rooms and halls, where they were caught while attempting to escape to the roof and fire escapes. One man was killed while escaping over the roofs. Coroner Haley has begun an investigation.

\* Three of the victims were later identified as Michael Delaney and his wife, Della, and M. Scott, manager of the New York office of the Rossiter Music Publishing company.

## WOULD-BE ASSASSIN IS JAILED

By Associated Press.

New York, April 17.—A shot was fired at Mayor Mitchell, just outside the City Hall this afternoon. The bullet went wide, but struck corporation counsel, Polk, who accompanied him, in the jaw. He was seriously injured. Nearly all of his teeth were knocked out. The bullet narrowly missed Arthur Woods, the new police commissioner. The mayor, Polk and Woods were entering an automobile at the time. An old man, whose name was not at first ascertained, did the shooting. He edged his way through the crowd and was apparently attempting to assassinate the police commissioner.

The would-be assassin was almost instantly seized by a policeman, and was taken at once to the police station. He was shabbily dressed and about 55 years old. Mayor Mitchell himself questioned the man, but he would say nothing concerning himself, mumbling, "I have nothing to say." Search of his pockets disclosed two letters addressed to the mayor. Although the man refused to reveal his name, marks on his clothing bore the name of David Rose. It is believed the man is demented.

## HEAVY LOSS

Cleveland, Ohio, April 17.—One woman was killed and six injured or burned in a fire which today destroyed a three-story apartment house on E. Sixth Street.

The woman, Mrs. Bessie Mahoney, 35, died in an automobile on the way to a hospital, after a leap from a second story window. The cause of the fire is unknown.

## TWO BURNED

By Associated Press.

Ulrichsville, April 17.—Dr. G. W. Haversfield was overcome by gas and fatally burned, and Joseph Johnson, his negro attendant, was burned to death early today in fire which destroyed Haversfield's apartments, and for a time threatened the whole business section.

The parents of the children, who instigated the strike, say they believe the building is unsafe.

Truant Officer McBane and eleven assistants served notice on parents of the children that all parents will be arrested if the children do not report for class Monday.

## FRANK'S NECK SAVED AWHILE

By Associated Press.

Atlanta, Ga., April 17.—The execution of Leo M. Frank for the murder of his sweetheart, Mary Fagan, which had been fixed for noon today, will probably be delayed for many months through the act of his attorneys in filing two motions in the Superior court.

If, after arguments on April 22, the motion is denied, appealed probably will be taken to the Superior court of Georgia. In event the trial is again denied, it is believed the case will be carried to the United States court.

## KILLED WIFE

Bellaire, Ohio, April 17.—Angry because his wife refused to pay half cost of a divorce action he had instituted against her, John Luggi early today shot her four times, inflicting wounds which probably will prove fatal.

Luggi then killed himself. Two small children witnessed the tragedy.

## AWFUL DEED OF HUSBAND

Booneville, Ind., April 17.—Pushing his wife, Mary, aged 42, against a hot stove in his home here today, William Folsom, aged 52 years, a prosperous farmer, held her there while he fired two shots into her heart, killing her instantly. He then turned the weapon upon himself and the doctors say his wounds will prove fatal.

The shooting occurred following the wife's denial of infidelity, a charge made by Folsom, and her refusal to his demand that she surrender her wedding ring.

The Folsoms have ten children, ranging in age from 3 years to 25 years.

# JIMINEZ JOLTS THE PRESIDENT

New York, April 17.—President Wilson's action in sending the Atlantic fleet to Tampico was characterized as an outrage by Alfonso L. Jiminez, the Mexican Vice Consul at New York. Senor Jiminez declared that "every man, woman and child in Mexico, with an ounce of decent blood in their veins, would fight to the last if the United States sent an army into Mexican territory."

Jiminez is acting Consul General, pending the arrival of his chief, who is expected soon.

"How can the United States expect to be saluted by the Mexican government, considering the fact that long ago, at the end of the Madero regime the United States refused to recognize Huerta?" was a question Senor Jiminez asked. He said it could not be answered. "The action of the United States in sending all those ships to Mexico is an outrage, and there is no excuse for it," he added.

"Mexicans and other people I met last night were amazed at the action of this government. The Tampico incident was a thing that might have happened in any country under like conditions. Then all possible reparation was made; the sailors, who were arrested, were released. They had been victims of the blunder of a minor officer."

"President Huerta cannot be everywhere, and no doubt he would have prevented the thing. But the idea of demanding that Mexico fire a salute to the American flag when the United States refused to salute back is monstrous. How can President Wilson demand a salute from a country he does not recognize?"

"If President Huerta did order a salute, and if the United States accepted it as an apology, would it not mean the recognition of the Huerta administration as the Mexican government?"

"The United States has been watching for this opportunity to quarrel with us. That is obvious to every one who has watched the situation. I do not believe that Americans will be in sympathy with any interference in our internal troubles."

## B. & O. OFFICIAL KNEW BENTON'S SLAYER

"The last man in the world I would have thought to have been guilty of murder," said B. & O. Assistant Superintendent E. N. Brown, Monday evening after reading in an evening paper that the Carranza commission had fixed the blame for the killing of the Englishman, William S. Benton, on Major Rudolfo Fierro of General Villa's staff.

"I knew Fierro well," said Mr. Brown. "I first met him in 1909, when I was assistant superintendent of the Sinaloa division of the Southern Pacific at Mazatlan in Mexico. He was a breakman when I first knew him and later I promoted him to a conductor's position for his good work."

"In Fierro, I recognized something above the average Mexican and later I learned that he was the 'black sheep' of a good family. He had been 'secretario particular' to Gen. Luis Torres, military governor of the Northern zone of Mexico, including Lower California, Sonora, Sinaloa and part of Chihuahua."

"He had married a prospective heiress, but her death canceled his obtaining her money and he then went into the railroad business. He wrote an excellent hand and during the Madero revolution displayed no interest in either side."

"He handled trains for the government and insurrectos equally well. The correspondent of this paper refers to him as a drinking man but I never knew him to take a drink while in my service. He was neat in dress and his training as private secretary for General Torres enabled him to obtain later a place on Villa's staff. He is now in charge of the transportation of all of Villa's troops."—Chillicothe News.

## DEADLY PLANT NATIVE OF OHIO

Washington, D. C., April 17.—Although the roots of the plant known as the "water hemlock" contain a deadly poison, its tops and seeds in hay will not harm cattle, according to scientists of the United States Department of Agriculture. These scientists, whose specialty it is to investigate plants from which drugs and poisons are taken, have been compiling data on this plant, which is one of the most deadly known to America.

Besides its scientific name "Cicuta" and its more popular name "water hemlock" the plant is known in various localities as "cowbane," "wild parsley," "snakeroot," "spotted hemlock," "snakeweed," and "beaver poison." In New Mexico it has been known as "pecos." The plant has also popular German names, as it is found in Germany.

The plants grow in wet places such as swamps and irrigating ditches in nearly all of our Northern and Western states, including Ohio. When the root of the plant is cut open drops of an aromatic oil are seen. These give the root a peculiar odor and are popularly thought to be the source of the poison. The poison is indeed in the root, but is secreted in the form of a resin which is distinct from the oil. Although the poison is most deadly, the fact that it is confined to the roots rather than extending to the tops and seeds accounts for the fact that it causes but comparatively few deaths. The total loss from such weeds as "loco" and "larkspur" is much greater.

"In what court will that electrical case be tried?" "Why, naturally, in the circuit court."—Exchange.

## ANOTHER BIG DAY FOR WASHINGTON

Hagenbeck-Wallace Circus Will Visit Washington for First Time Saturday, April 25th, and Mammoth Crowd is Expected—Free Street Parade.

Saturday, April 25th is expected to be one of the biggest days in Washington in recent years, for the Carl Hagenbeck and Great Wallace Shows Combined will exhibit here for the first time on that day.

For more than a quarter of a century the Great Wallace Circus was the best in all the land. Several years ago the big circus was consolidated with Carl Hagenbeck's trained wild animal exhibition. Carl Hagenbeck, before his death was the "animal king" and the combination of the two shows for a single price of admission makes it something unheard of in the amusement world. With few exceptions great arena acts originate in Europe. They are invariably introduced into America by the Hagenbeck-Wallace Shows, who maintain agencies in Europe and Asia for the purpose of keeping in touch with the latest achievements.

The Hagenbeck-Wallace Shows have either originated all great attractions in the past few years or have searched them out from distant lands.

Its agents are always looking for novelties. B. E. Wallace may be justly called the "circus king" as he is the largest individual circus owner in the entire world. His name has been hisp by the mouths of two generations of children.

Today the circus has reached a size that is giving the railroads much concern. If the three trains were any longer they could not handle them. It enrolls over 1200 people, a thousand of whom travel along with the show. It has 600 horses, three herds of elephants, and 600 other animals. All of the equipment throughout this season is new. It cost the owner, Mr. Wallace, \$4,000,000. The parade alone represents a cash outlay of \$2,000,000. The menagerie is worth half as much. The best circus artists in the world have been engaged for this season; there are 600 of them.

Doors to the big show will be opened at 1 and 7 p. m. Performance will begin an hour later. The parade leaves the grounds at 10 o'clock.

## Comparatively Trivial Incident

Comparatively trivial happenings sometimes result in changing the map of the world and set in motion history-making movements.

All the happenings of consequence in Mexico—happenings which were serious in their effect on the United States and which brought about serious complications with other great nations of the earth have been endured until the patience of the American people, with the insolent Mexicans of both the Huerta and Carranza factions seemed almost inexhaustible. The United States has endured so much—suffered so many humiliations from acts of commission and acts of omission by the Mexicans that it was little wonder that the brigands across the Rio Grande had come to believe that the people of this land could not be provoked into a war.

The pronounced convictions of the present administration for world-wide peace were well known to the people of all lands and the Mexicans have taken advantage of these convictions.

Insult and injury has been suffered in silence and at last one of the most trivial incidents of all the many that have gone before, taxed the patience of the people of the United States too much and it gave way.

An orderly had been sent ashore from one of the vessels lying at anchor in the harbor of Tampico to get the mail. The Mexican officials arrested that orderly. He was subsequently released unharmed and permitted to return to his vessel.

This government demanded that the government of Huerta in Mexico apologize for the insult offered by saluting the stars and stripes.

The Mexican federal government refused to do so and as a result the whole army and navy of the United States has been made ready and set in motion. The great war vessels are steaming to Vera Cruz and Tampico. Out of Hampton Roads, stripped for battle the dreadnaughts of the navy, armed to the teeth, sailed last Tuesday. Out of the west the Pacific squadron is on its way and Mexico must apologize and pay homage to the dignity and power of the United States or suffer the consequences by having its ports seized and perhaps armed intervention and control of the whole country.

It was a peasant boy who gave Grouchy the wrong directions as to the way to Waterloo, and because of that Napoleon was humbled and the map of Europe changed.

The destruction of millions of dollars worth of property belonging to foreigners, the reign of anarchy in Mexico under which no man's life was safe were insufficient to arouse the American people to action and the arrest of a marine from one of the war vessels and the seizure of the government dispatches might also have been passed by, but the refusal to apologize for the insult offered the stars and stripes was the crowning offense of all.

Abundant in patience and determined on peace, there is a limit beyond which the people of the United States must not be vexed.

If armed intervention is not prevented, the cost of humbling Mexico will be enormous, but having determined upon that course there is nothing now save an abject apology by Mexico which will stay the hand of the United States.

Mexico has been piling provocation on top of provocation until the cap sheaf of all, a trivial incident, by comparison, made the load of it all too heavy to carry longer.

Apology may save war at this time, but Mexico, if war is prevented, has been taught that the United States will not longer suffer at her hands without striking back.

## PRACTICAL HEALTH HINT.

## Children and Eating.

Great importance is attached to the teaching of children to eat slowly. Although it is not strictly true to say that every child who eats rapidly is in poor health, it is true that a child who is in the habit of chewing each mouthful thoroughly is rarely in poor health. In children imperfect mastication is frequently the cause of restless sleep and overwrought nerves. Many a child is blamed for being naughty when he is suffering from indigestion brought about by hasty eating. The fault is not always with the child. Most children naturally eat slowly. Any one who has ever given bread and milk to a young child knows that it takes a long time to finish the meal. The child takes a spoonful and then pounds on the table or laughs and plays. He is in no hurry for the next mouthful. It is the nurse or mother who is in a hurry and who holds the spoon before the child's mouth and urges him to eat. Thus is laid the foundation of the rapid eating habit.

## Poetry For Today

## THE EXILE.

I watch the steady march of stars  
Till day dawns near the eastern bars,  
And midnight shadows, westward drawn.  
Fade before the desert dawn.  
The mighty silence is not stirred  
By fluttering leaf or waking bird;  
The sun looks down, a haggard eye,  
A brazier in a burnt-out sky.  
On quivering butte and wrinkling plain,  
A land that has forgotten rain.

The spring of English turf is sweet  
Beneath the tread of tired feet,  
And sweet to aching English eyes  
The misted gray of English skies,  
And soft the drip of autumn rains  
On Dorset downs and Devon lanes.

Alas! Three thousand miles and more

Upon the ocean's shifting floor,  
Ere flashes on our straining sight  
The evening star of Scilly Light.  
Or through the morning fog looms red  
The towering bastion of Bolt Head!

The screaming hawk wheels up the sky.

Yonder is England, here am I.

## MEN SPEND NIGHT AT CANTON

Only Small Percentage of the Followers Coxey Had Counted On In Line When the Start Was Made From Massillon — Vagrants Released From Jail Join the Army, Which Finds the "Going" Bad.

Canton, O., April 17.—General Jacob S. Coxey's army of unemployed left here this morning on the second leg of its march to Washington. The army camped here last night. Louisville, O., will be the next stop.

When Coxey left his home at Massillon it was found that only a small percentage of the followers he had counted on were in line. Several had gone on ahead by way of convenient freights. However, the ranks were swelled by Massillon school boys and when "General" and Mrs. Coxey climbed into Coxey's old phaeton and the "general" gave the signal for the start by clucking to the old mule that drew the phaeton, he had a fairly large command.

The marchers found the roads between Massillon and Canton very bad. Squad after squad dropped out and when the army finally reached Canton only a handful of privates backed up "General" Coxey.

On his arrival here last night Coxey made an address in the public square. His followers sold a few booklets. There was great rejoicing when an old man who said he marched with Coxey in 1894 joined the squad and produced a large sack of sandwiches. The soldiers were enabled to sleep with full stomachs.

Coxey declared the contingent would grow rapidly, but whether it did or not he said he would make the march to Washington.

## PLAN KNOCKED OUT

Dayton, Ohio, April 17.—The highlander triumphed over the lowlander in the conservancy court, which has been hearing the petition of the Flood Prevention committee of this city for the erection of a conservancy district, and has denied the prayer of the petitioners.

The court adjourned last night, and its respective members left this city for their homes. The individual members refused to comment upon the finding of the court, stating that an announcement of the conclusions of the court would be made later.

It is understood, however, that the petition was dismissed largely upon the ground of its repugnance to a number of phases of the constitution of Ohio.

## Pimples? Well, Don't Be!

People Notice It. Drive Them Off With Dr. Edwards' Olive Tablets.

A pimply face will not embarrass you much longer, if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, the bowels and the liver with Olive Tablets.

Dr. Edwards' Olive Tablets are the successful substitute for calomel—there's never any sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with "a dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil, you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints and Olive Tablets are the immensely effective result.

Take one or two nightly for a week. See how much better you feel and look. 10c and 25c per box. All druggists. The Olive Tablet Company, Columbus, O.

# AUTOS MAY USE DRIVEWAYS IN WASHINGTON CEMETERY

Beginning Next Week Rules Regulating Local Cemetery Will be Changed to Admit Automobiles Under Certain Restrictions—Change Is Experiment Which Will Become Permanent If Drivers of Machines Adhere to the Rules.

Yielding to a demand which has been constantly growing, the trustees of the Washington cemetery have decided to try an experiment in allowing automobiles to enter the cemetery, and if the experiment is successful, the privilege will then be made permanent.

Heretofore, no automobiles have been allowed within the cemetery gates, but, beginning next week, the trustees will permit autos to use the driveways, providing certain restrictions be observed to the letter, it being necessary to have the restrictions in order that the privilege will not be abused by careless drivers.

Upon entering the grounds, all au-

tomobiles must run with closed mufflers, and in no instance must the speed be greater than eight miles per hour.

Certain routes in the cemetery must be observed, and autos be driven in one direction. The route will be indicated by pointers placed at frequent intervals.

Only two stops will be permitted, one at the mound and the other at the vault. Persons desiring to go further into the cemetery must then get out of their machines and walk. The two stops were decided upon in order that no driveway be blocked by the promiscuous stopping of machines, as the driveways are not of sufficient width to permit another vehicle to pass when a machine is stopped in the roadway.

If the restrictions are observed, the privilege will become permanent, but if the rules are violated, the cemetery will once more become closed to machines.

For several years permission has been sought to have the rules changed to permit machines to enter the grounds.

during the past year reached a total of 134.

All are greatly pleased with the growth and general condition of the church, and are hopeful of one of the best years in the history of the church society.

## WHERE IS PITNER? LETTER FOR HIM

In the list of advertised letters at the local postoffice is a letter for Harry Pitner, the man who was arrested near Jeffersonville for stealing a suitcase, and who was dubbed the "man of mystery" owing to his many curious acts.

When arrested Pitner gave the name of Pittman, later changing this to another name. He was identified as the man who had been lurking about Jeffersonville for some time previous to his arrest, and who had some weeks before advertised in the newspapers for a wife. It was later learned that he lived near Mt. Sterling, and that a Jeffersonville woman had answered his letters—thus accounting for his presence at Jeffersonville.

He was taken to Jamestown for trial on a charge of theft, and a well-to-do brother from Columbus came to his rescue and he was released.

The presence of the letter in the local postoffice would indicate that Pitner has been or is now in this community.

## LAID TO REST WITH BEAUTIFUL SERVICES

An immense concourse of people from a wide radius of territory, assembled at the Marchant home, near Milledgeville, Thursday afternoon for the funeral of Mrs. Rollo Marchant.

Sad beyond words to tell was the simple service, conducted by Rev. F. E. Ross, of Grace M. E. Church, the deceased having been a member of the M. E. church in her home town.

Relatives and friends who were beginning to enjoy acquaintance with Mrs. Marchant realized most fully what her sudden taking away meant and sympathy went out in overflowing measure to the young husband, and close relatives.

The minister spoke very beautifully of the young life, as a great personal loss to loved ones and also a serious loss to the community. He said that it is natural to think that a life taken in the morning of womanhood is untimely, but life is not measured by years alone, but by the terms of character and attainment. Some have lived more at thirty than others at sixty.

It was so with this young wife, the beauty of her character, the range of her attainments, her heart—some interest in everything that was good, all these prove a life exceptionally fruitful.

In the higher purpose of God it was a finished life. The Master completed his earthly life at thirty-three and it is inconceivable that anything could be added to it.

So with this life, it is not to be estimated by duration; rather by the high intellectual qualities, the fine sensibilities, the culture breadth of this young woman.

There was no music. Rev. Ross reading the hymns, "Lead Kindly Light" and "My Jesus, as Thou Wilt."

The flowers were magnificent and in great number, from friends remote and near. A beautiful casket blanket from the family and a floral clock from the B. P. O. E. of this city were two specially marked pieces.

A long train of carriages accompanied the family to the Milledgeville-Plymouth cemetery, where the interment was made in the Marchant family lot. Acting as pall-bearers were Messrs. Gil Perrill, Jess Persinger, H. C. Anthony, G. Gray, Phillip Ellis, of Melvin and Mr. Clark, of Chillicothe.

Relatives and friends from a distance were three sisters, Mrs. Link, Anderson and husband of Bainbridge; Mrs. George Strickman, and husband of Celina; Miss Elizabeth Blosser, of Frankfort, a brother, Mr. Peter Blosser, of Chillicothe; Mrs. James Anderson, Miss Effie Rhodes, of Anderson; Mrs. Caplinger, Mr. and Mrs. Jess Mallow, Mr. Hardman, of Austin; Mr. Beant, Miss Anna Beant, Chillicothe; Mrs. H. E. Coffman, of Dayton.

## BULLETS STOP HORSE RACING

Tulsa, Okla., April 17.—Martial law is supreme in Tulsa, and in the absence of any action on the part of the Criminal Court of Appeals at Oklahoma City enjoining Governor Cruce and Adjutant General Canton from taking charge of the local race track, the management of the Tulsa Jockey club acknowledged defeat and permanently declared the race meet-

ing off. Governor Cruce was so advised by attorney for the track management, but he has not issued orders lifting martial law rule from the fair grounds. The troops, as far as can be learned will remain here until to-day.

Following the bold defiance of the track men in running the first race, which finished in a shower of bullets, the club stated yesterday that they would attempt to race again in the afternoon. Adjutant General Canton immediately ordered cables strung across the track in a dozen places, and stationed guards at each cable with instructions to shoot if necessary to prevent their removal.

The Tulsa Jockey club stated yesterday that they will bring suit for \$50,000 damages against Governor Cruce and Adjutant General Canton.

Tells Others How to Get Strong and Well.

Mrs. W. W. Lake of Aberdeen, Miss., says: "The grippe had left me in a weak, run-down condition from which I suffered for some time. I tried different remedies but nothing seemed to do me any good until I took Vinol, from which I received great benefit. My cough is almost entirely gone and I am strong and well again, and I am glad to recommend Vinol to others who suffer as I did."

Mrs. Lake's recovery was due to the combined action of the medicinal elements extracted from cod's livers—combined with the blood making and strength creating properties of tonic iron, which are contained in Vinol, and her cough disappeared as a natural result.

We guarantee that Vinol will do all we claim and will pay back your money if Vinol does not satisfy you. Blackmer & Tanquary, Druggists, Washington C. H., Ohio.

New York, April 17.—Hudson Maxim, who was the principal speaker at the annual dinner of the Aero-nautical Society last night, blamed the Carnegie Peace Foundation for the failure of Congress to provide for necessary armaments, including military aircraft, in which he said America was far behind the powers of Europe.

"This government," he said, "is miserly in support of aviation and miserly in support of its own inventors. In Germany \$7,000,000 was spent for aviation last year."

A particularly delightful affair of exquisite corsage bouquet of yellow rosebuds and snap dragons. The guest of honor was also presented with a similar corsage bouquet, the favors all the more appreciated from the winsome grace with which they were presented by the pretty little daughter of the house, Mary McLean.

Sixty men and women responded to the invitations and enjoyed the hospitality of their entertainers to the fullest extent.

The Post home was elaborately decorated with flags and flowers, the colors of temperance and suffrage, orange and white, tastefully employed.

The color scheme was also pretty in the delicious refreshments served.

Mrs. Post and Mrs. Flatter received, assisted by Mrs. Frank E. Haines and Mrs. Bruce Pine. Assisting in the dining room, were Mesdames Relia Silcott, Dulce Elliott, Nora Haines, Misses Iyah Haines, Grace and Hazel Post.

The attractive young waitresses wore yellow caps and gowns. Mrs. Flatter made a charming talk during the evening and a petition asking for a referendum vote on the suffrage question was circulated. Every man present signed it.

# VILLA IN DANGER

Last of Federals Driven From the Laguna District.

El Paso, Tex., April 17.—The last of the federals in the Laguna district have been driven out, but General Pancho Villa came near being captured, according to a message received in Juarez from Major Rogus Gonzales Garza, to his brother.

The telegram was dated at Torreon and declared that "It is our belief that we will be able to keep the federals, formerly comprising the Torreon garrison and the reinforcements that came to their aid from escaping either to Saltillo or Monterrey. Our forces under General Gutierrez inflicted heavy defeat at the station of Venado on the last of the federal reinforcements sent into this district to attack General Villa's command at Torreon. These reinforcements came from San Luis Potosi and are cut off from retreat."

General Villa was in a very tight fix in the fighting, but was saved by the cool-headedness of General Angeles. Villa personally led some of his troops in a charge during the fighting. He became surrounded, and only the military ability of Angeles extricated him and prevented his capture by the federals, according to a supplementary report.

Fox, Toledo, was elected supreme representative; Thomas Butworth, Cincinnati, supreme recorder; Lucin Seymour, Cleveland, secretary; W. H. Beebe, Ravenna, grand treasurer. Akron gets the next convention.

## BLEASE DEFIES

Refuses to Muster Out Companies Held Delinquent.

Columbia, S. C., April 17.—Secretary of War Garrison informed Governor Cole L. Blease that unless Mr. Blease retracted certain statements in a letter to Mr. Garrison which the secretary deemed offensive, he would revoke his order for the holding of militia maneuvers by the militia of four states in conjunction with United States regulars on the Isle of Palms, near Charleston, this summer.

Governor Blease last year refused to muster out militia companies which failed to meet the requirements of the war department under the Dick law, and in consequence Secretary Garrison withdrew all federal aid from the South Carolina National Guard.

When informed of this action Governor Blease exclaimed that he thanked God that South Carolina was at last free from "Yankee domination." However, Governor Blease was led to reconsider his determination and the matter was adjusted by Secretary Garrison's agreeing to give the delinquent companies another chance. Three of them have again failed to meet the federal requirements and were ordered mustered out. Governor Blease has again flatly refused to muster them out, and in consequence the war department issued an order withdrawing federal aid from these three companies. Governor Blease declared he would not retract his statement concerning Secretary Garrison.

## BOOZE IS NOT LOCAL ISSUE

Washington, April 17.—A delegation of prohibitionists had a hearing before the senate judiciary committee. Senator Borah of Idaho told them they would have to bring information to convince senators that a constitutional amendment for nation-wide prohibition was the most effective way of dealing with the liquor traffic or the committee would not consider a resolution submitting such an amendment to the senate for ratification.

Responding for the prohibitionists, Dr. James Cannon, Jr., superintendent of the Virginia Anti-Saloon league, said that prohibition was no longer a local issue. He said the entire nation was aroused, and that where so many people throughout the country were desirous of voting on a question congress ought to afford them the opportunity. Several other speakers were heard.

## TALKS TO MILLERS

Columbus, O., April 17.—"Ohio Products for Ohio Consumption" was the subject of an address today by A. P. ## M'NALLY FAILS IN THE SENATE

Washington, April 17.—The senate rejected the nomination of James C. McNally of Pittsburg to be consul at Nuremberg. The majority against him on the reconsideration was the same as on the first vote, the division being 29 to 27. McNally was in the consular service in China at the time he was nominated for Nuremberg. Charges were made against him of irregularities while acting as consul at Nanking, but the state department after investigating held that the charges were not sufficient to eliminate him from the service.

## HACKETT WOULD BECOME A BARON

London, April 17.—Now that James K. Hackett, the actor, has become a wealthy man through an inheritance from a niece, he has an ambition to become a peer, and if he persists in his present determination he will file a claim to be recognized as Baron Hackett of Hackettstown and Sheldon Abbey, County Carlow, Ireland. Granted the Request.

The Irishman in France had been challenged to a duel. "Shure," he cried, "we'll fight wid shillalahs!"

"That won't do," said his second. "As the challenged party you have the right to choose the arms, but chivalry demands that you should decide upon a weapon with which Frenchmen are familiar."

"Is that so, indeed?" returned the generous Irishman. "Then we'll fight wid guillotines."—New York Times.

### STRANGE APATHY.

American manufacturers have such a reputation for enterprise and business sagacity that it is strange to hear the many tales of their lack of it in the foreign trade. It is notorious that they have allowed Germany and England to run away with the business of most South American States. Less is known of their blunders in other sections of the world.

While a great export business has been built, there has been the same fatuous indifference to details that has marked the endeavor of the American manufacturer to break into the markets of Brazil and Argentina.

Last year the state railways of Egypt wanted a million dollars worth of rolling stock. The American consul general secured an invitation to Americans to bid, the first time such an opportunity had ever offered. There was a correspondence, marked it is said by "un-American apathy," and the contract was finally divided up among Belgium, German and English manufacturers. The Americans did not even bid.

The man who narrates this slovenly piece of business says that if a competent man had been sent to Egypt at once and had shown the proper enthusiasm and interest, there could be no doubt of the ability of the American firm to get the contracts, and to have a good chance at \$6,000,000 more that is coming shortly.

Incidentally, it should be understood that the future prospects of Egypt are second to those of no country in the world. A wonderful development is taking place in that ancient land. There are magnificent trade possibilities opening every day.

The indifference that has characterized most American manufacturers is hard to understand. Possibly it is because there has been enough business at home to justify reasonable expansion.

It is barely possible, too, that the protective tariff, once a needed nurse, came to be a coddling influence that deadened initiative when foreign trade was considered. The manufacturer knew that he was protected against foreign competition, and devoted all his time to developing the home trade, and fighting his competitors to get it.

It cannot be doubted that in many instances protection was actually an injury to business it was designed to benefit.—Dayton News.

## PORTLAND CEMENT

The final figures for the Portland cement industry in 1913 show a production of 92,097,131 barrels, shipments of 88,689,377 barrels and stocks on hand 11,220,328 barrels. It is somewhat interesting to compare these figures with the estimates made by the Geological Survey on January 15. These estimates were as follows: Production 92,406,000 barrels, shipments 88,853,000 barrels and stocks on hand 11,375,000 barrels, the percentage of error ranging from only .003 in production to about .01 in stocks on hand.

PRICE FAVORS  
UNIFORM SYSTEM

By Associated Press.

Chicago, April 17.—National legislation to establish a uniform system of rural credits was favored by Homer C. Price, dean of Ohio State University, today in an address before the second National Conference on Marketing and Farm Credits meeting here in joint session with the Western Economic Society. Mr. Price asserted that the Moss and Fletcher rural credits bill now before Congress was the best thus far evolved. He said:

"The bill as a whole is a fine piece of constructive legislation. It provides for the establishing of either

national stock companies or co-operative

rural land banks, leaving it optional with the incorporators which

shall be organized.

"It provides for the issuing of na-

tional bank bonds based on the farm mortgages held as securities for loans. The bill as recommended provides that each bank shall issue its own bonds and the question may very properly be raised as to whether it would not be better to have one central farm land bank for each state and have all bonds issued through and by the central bank of the respective states.

"The provision for exemption of the farm land bonds and all other property of the banks except real estate from taxation, federal state and local is revolutionary. Coupled with this is the provision that the interest rate charged the farmer shall not exceed one per centum the rate of interest paid on the bonds which are secured by the farmer's mortgage.

"If this bill becomes a law its passage will make the emancipation of the American farmer from extortionate interest rates and commissions on farm loans. It will mean better things for American agriculture and increased agricultural production."

## GREATEST CONTRALTO APPEARS AT COLUMBUS

Communities within a radius of 100 miles of Columbus are manifesting unusual interest in the forthcoming appearance of Mme. Clara Butt, the world famous contralto, and her husband, Kennerley Rumford, baritone, who will be heard at Memorial Hall, Tuesday evening, April 21, as the fourth number in the Frankenberger series of concerts. Mme. Butt is known to all who have had the advantage of European travel, but is a distinct novelty to American concert goers. She has just achieved wonderful success in Pittsburg and Chicago.

Glenn Dillard Gunn, critic of the Chicago Tribune under date of March 23, says:

"In every English speaking country there may be found people who believe that Mme. Clara Butt, the English contralto, has the greatest voice in the world. On the occasion of her last appearance here the writer joined the great company of music lovers who share this conviction, and her reappearance yesterday afternoon

in recital necessitates a repetition of the belief already expressed. Her vocal gifts surpass in brilliancy, in range, in power, in beauty, sympathy and variety of tone any voice that has been heard here within the last fifteen years.

"For the rest be it written that Mme. Butt can compete with Mme. Tetrazzini in the department of vocal pyrotechnics; that in weight and intensity of tone she can match the exciting achievements of Mr. Ruffo; that the purity and perfection of the tone is quite unmatched, and that in dignity and nobility of style one must seek among the great German singers standards of comparison by which to measure her art."

Arrangements are already making for special parties from various sections of the state.

# DEAL NOW ON IN DETROIT FOR SALE OF GRASSHOPPER

Blue Prints and Other Data Just Completed to be Used in Sale of Road Which is 32 Miles Long and Has 31 Bridges—Direct Traction Road From Columbus to Cincinnati Seen in Deal Now Pending.

A deal is now on in Detroit for the sale of the Grasshopper division of the D. T. & I. railroad, to either one of the electric companies or to one of the steam roads operating in this part of Ohio, and within a short time negotiations are expected to be closed whereby the Grasshopper passes into other hands and will undergo wonderful transformation in the way of improvements and changes, so that the points touched by the road will really enjoy satisfactory service, either electric or steam.

Blue prints of the entire 32 miles of the Grasshopper, have just been completed, and are now in the hands of the officials of the road at Detroit, or will be within a short time. The blue prints show 31 bridges on the road.

It is generally understood that the road is to be converted into an electric line, and extended at both terminals so that it will form a connecting link between two of the principal electric lines, and itself become a much used and serviceable line.

A sixteen mile extension through

Danville would permit connection with the Ohio Electric line at Orient and a shorter extension on the western end of the present road would give a direct line from Columbus to Cincinnati, by a route much shorter than any present steam or interurban railway.

Some definite information regarding the sale of the Grasshopper is expected within a short time, as it is believed the company after the line will, if purchased, place the road in condition for use during the summer.

## CASE CONTINUED UNTIL MONDAY

Hearing the charges against Kline McCartney, who is accused of shooting Roscoe Vivens one night some two months ago, occupied Mayor Coffey's court part of Friday morning and after the examination of several witnesses the case was continued over until next Monday.

Homer Bowen, a companion of McCartney, testified that upon the night in question he and McCartney met Roscoe Vivens and two other colored fellows, and alleges that himself and McCartney were jostled off the sidewalk into the snow, and that following an altercation one of the men drew a knife and started toward the two when McCartney used his gun.

Vivens denied that himself and companions had crowded the two fellows off the sidewalk. He could not positively identify McCartney as the man who did the shooting.

McCartney did not testify. Other witnesses will probably be placed upon the stand when the case again comes up for hearing.

Bowen was released from custody, and McCartney was returned to the county jail to await further hearing.

## COURT OF APPEALS SUSTAINS LOWER COURT

Attorney Lee Rankin received word this afternoon that the Court of Appeals had refused to issue a restraining order in the case of Bernhard vs. Barchet.

This case was argued at Troy, O. by Rankin & Rankin of this city for the defendant and Wilson and Reator of Columbus for the plaintiff.

The case will be heard on its merits May 12th.

# Dictator Plays False and Makes Counter Proposition

Huerta, fearing loss of prestige at home, informs the United States that he will salute American flag if our guns will boom forth simultaneously—he is told that such an apology will not be accepted—battleships go on to back up demands

By Associated Press.

Washington, D. C., April 17.—Huerta has parleyed again. He demands that his salute to the United States flag shall be returned simultaneously, gun for gun. This President Wilson is practically certain not to accept. The latest hitch at the eleventh hour, when officials here expected that the situation was as good as closed, was described in dispatches from O'Shaughnessy. Wilson discussed it with the Cabinet officials. Administration men said privately that Huerta's counter proposition would not be accepted. The developments of the conference bore out the fears of those officials who expected Huerta would equivocate again.

Any intention of recalling any of the battleships now on their way to Tampico, has been abandoned. Those close to the administration expect President Wilson's demand for an apology to be backed up by the fleets.

The text of O'Shaughnessy's dispatches was not made public but it became known that Huerta's latest proposal was that as his guns fired a salute to the stars and stripes, as an apology for continued affront to the United States, particularly the recent arrest of marines at Tampico, that the guns of the American fleet should reply simultaneously, gun for gun.

Officials here were ready to acknowledge Huerta's salute of 21 guns, after it had been finished, with a return salute, such as is described in naval customs and practices. That would be merely acknowledging and "amend honorable". But to return the salute gun for gun, they pointed out, would make the apology valueless.

Officials discussed Huerta's latest move as an act to preserve his own dignity before the Mexican people in that part of the country under his control. While President Wilson and the Cabinet will decide what shall be done, the opinion was expressed freely in official circles that nothing but an official apology and such a salute as the United States demands, would be acceptable now. When the Cabinet adjourned, Secretary Bryan still described negotiations as "encouraging but not final". "I have received one message from O'Shaughnessy and have sent one in reply," he said. Secretary Bryan left the Cabinet while it was still in session to go to the State department and send some dispatches.

It is understood that word has gone back to Huerta that a simultaneous salute would not be accepted, and that O'Shaughnessy has been instructed that the United States would insist on its demands as made. Officials expressed their views that Huerta had been listening to "bad advice" during the last 12 hours, and that after he had promised O'Shaughnessy yesterday that he would give the apology. Members of the Cabinet state that Huerta had been informed that no simultaneous salute would be acceptable to the United States.

Secretary Bryan finally instructed O'Shaughnessy to in-

# THE UNEMPLOYED SPURN GEN. COXEY

By Associated Press.

Canton, Ohio, April 17.—Fifteen recruits made up the rank and file of Gen. Jacob S. Coxey's army of unemployed, which fell into line and started at 9 o'clock this morning. A large crowd saw the general's aides assemble the army from Socialist Hall and near-by saloons to make the start.

A corps of five fifers, organized by Lieut. Anderson, was at the head of the procession. Eleven year old David Coxey, son of Gen. Coxey, and courier for the army, headed the line on a Shetland pony. None of the 100 or more high school boys

who marched with the army from Massillon yesterday put in an appearance this morning. The recruiting officer worked late last night scouring the brick yards and railway tracks in an effort to sign up more recruits. He said 28 men had agreed to march today, but only half of them put in their appearance.

While members of the army curled up on benches or on the floor in Socialist Hall last night, Gen. Coxey and his son were quartered at one of the best hotels in the city. Gen. Coxey is confident the number in his army will soon increase and says that he has no intention of giving up his march to Washington.

form Huerta positively that the United States will accept nothing less than a salute of 21 guns, and that the American ships will reply afterwards.

Officials have learned that Rear Admiral Mayo's demand was for a salute "which will be returned by this vessel".

President Wilson has changed his plan to go to White Sulphur Spring tonight and will go tomorrow.

Orders for assembling a regiment of marines at San Diego for Mexican service were countermanded.

Mexico City, April 17.—Jose Lopez Portillo y Rojas, Mexican Foreign Minister, said at noon today he believed the controversy between United States and Mexico would be adjusted before night.

## WEDDING DATE SET

Washington, D. C., April 17.—President Wilson and wife announced today that the wedding of their youngest daughter, Miss Eleanor Randolph Wilson, and Secretary McAdoo will take place on Thursday, May 7.

### GLASS EYE EXPLODES; MAN ESCAPES INJURY.

Huntington, W. Va., April 17.—While he was reading, the glass eye of M. C. Canterbury, a farmer residing near here, exploded. Canterbury was not injured, although the eye was shattered. Canterbury was leaning over his paper when, with a loud report, his artificial eye burst and a shower of glass fell on the paper. The explosion was similar to that of an electric light bulb. Glass eyes, like incandescent lights are made with a near vacuum. Just what caused the explosion none could explain.

## APARTMENT HOUSES BURN AND MANY DIE

By Associated Press.

New York City, April 17.—A fire that swept through a five story apartment house at 741 Eighth Avenue early today, claimed eleven victims and resulted in serious injury of many others.

Only four bodies taken from a theatrical boarding house occupying half of the building, could be identified. All the other bodies were charred beyond recognition. The identified are William Wallace, 46, Mrs. Nellie Wallace, his wife; Mrs. Nellie Spences, a cloak model; Mrs. George C. Davis and Muriel Davis, aged 3.

The fire started in a pile of waste in the basement of a five and ten cent store which occupied the ground floor of the building. All of the dead and injured were taken from rear rooms and halls, where they were caught while attempting to escape to the roof and fire escapes. One man was killed while escaping over the roofs. Coroner Haley has begun an investigation.

\* Three of the victims were later identified as Michael Delaney and his wife, Delia and M. Scott, manager of the New York office of the Rossiter Music Publishing company.

Gas escaping from a stove ignited and started the fire.

## DIED IN AUTO

By Associated Press.

Cleveland, Ohio, April 17.—One woman was killed and six injured or burned in a fire which today destroyed a three-story apartment house on E. Sixth Street.

The woman, Mrs. Bessie Mahoney, 35, died in an automobile on the way to a hospital, after a leap from a second story window. The cause of the fire is unknown.

## TWO BURNED

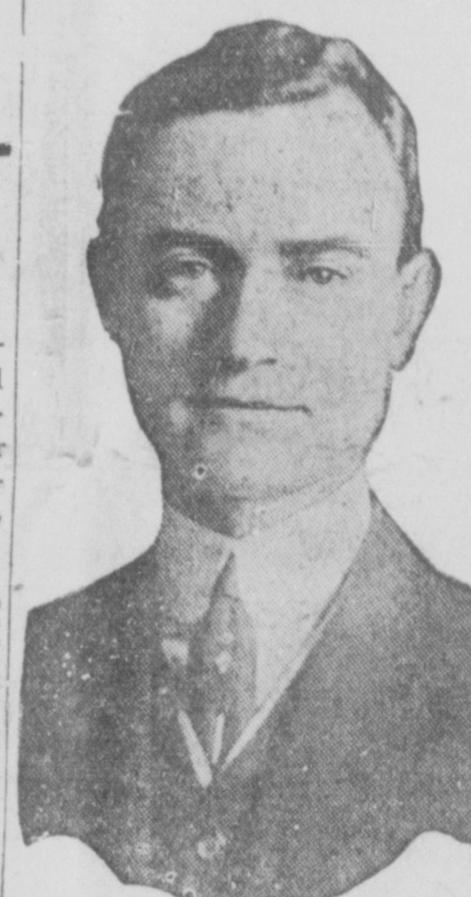

By Associated Press.

Urichsville, April 17.—Dr. G. W. Haversfield was overcome by gas and fatally burned, and Joseph Johnson, his negro attendant, was burned to death early today in a fire which destroyed Haversfield's apartments, and for a time threatened the whole business section.

## WOULD-BE ASSASSIN IS JAILED

By Associated Press.

Mayor Mitchell, of New York City, was today a near-victim of an unknown man, who attempted to shoot him as he was entering an auto. The shot missed Mitchell and struck his corporation counsel, Polk, knocking nearly all of his teeth out. The gunman was arrested.

## FRANK'S NECK SAVED AWHILE

By Associated Press.

Atlanta, Ga., April 17.—The execution of Leo M. Frank for the murder of his sweetheart, Mary Fagan, which had been fixed for noon today, will probably be delayed for many months through the act of his attorneys in filing two motions in the Superior court.

If, after arguments on April 22, the motion is denied, appealed probably will be taken to the Superior court of Georgia. In event the trial is again denied, it is believed the case will be carried to the United States court.

## KILLED WIFE

Bellaire, Ohio, April 17.—Angry because his wife refused to pay half cost of a divorce action he had instituted against her, John Luggi early today shot her four times, inflicting wounds which probably will prove fatal.

Luggi then killed himself. Two small children witnessed the tragedy.

## HEAVY LOSS

By Associated Press.

Dayton, Ohio, April 17.—A fire loss of \$15,000 was sustained at the Mitchell Wheel Company, early today when the hub and spoke department of the plant was destroyed.

## AWFUL DEED OF HUSBAND

Booneville, Ind., April 17.—Pushing his wife, Mary, aged 42, against a hot stove in his home here today, William Folsom, aged 52 years, a prosperous farmer, held her there while he fired two shots into her heart, killing her instantly. He then turned the weapon upon himself and the doctors say his wounds will prove fatal.

The shooting occurred following the wife's denial of infidelity, a charge made by Folsom, and her refusal to his demand that she surrender her wedding ring.

The Folsoms have ten children, ranging in age from 3 years to 25

## SCHOOL WAR BREAKS OUT

Cleveland, Ohio, April 17.—200 of the 763 pupils of the North Doan school on East 105th street, went on a strike today, refusing to attend classes as a protest against the years.

# JIMINEZ JOLTS THE PRESIDENT

New York, April 17.—President Wilson's action in sending the Atlantic fleet to Tampico was characterized as an outrage by Alfonso L. Jiminez, the Mexican Vice Consul at New York. Senor Jiminez declared that "every man, woman and child in Mexico, with an ounce of decent blood in their veins, would fight to the last if the United States sent an army into Mexican territory."

Jiminez is acting Consul General, pending the arrival of his chief, who is expected soon.

"How can the United States expect to be saluted by the Mexican government, considering the fact that long ago, at the end of the Madero regime the United States refused to recognize Huerta?" was a question Senor Jiminez asked. He said it could not be answered. "The action of the United States in sending all those ships to Mexico is an outrage, and there is no excuse for it," he added.

"Mexicans and other people I met last night were amazed at the action of this government. The Tampico incident was a thing that might have happened in any country under like conditions. Then all possible reparation was made; the sailors, who were arrested, were released. They had been victims of the blunder of a minor officer."

"President Huerta cannot be everywhere, and no doubt he would have prevented the thing. But the idea of demanding that Mexico fire a salute to the American flag when the United States refused to salute back is monstrous. How can President Wilson demand a salute from a country he does not recognize?"

"If President Huerta did order a salute, and if the United States accepted it as an apology, would it not mean the recognition of the Huerta administration as the Mexican government?"

"The United States has been watching for this opportunity to quarrel with us. That is obvious to every one who has watched the situation. I do not believe that Americans will be in sympathy with any interference in our internal troubles."

"The last man in the world I would have thought to have been guilty of murder," said B. & O. Assistant Superintendent E. N. Brown, Monday evening after reading in an evening paper that the Carranza commission had fixed the blame for the killing of the Englishman, William S. Benton, on Major Rudolfo Fierro of General Villa's staff.

"I knew Fierro well," said Mr. Brown. "I first met him in 1909, when I was assistant superintendent of the Sinaloa division of the Southern Pacific at Mazatlan in Mexico. He was a breakman when I first knew him and later I promoted him to a conductor's position for his good work."

In Fierro, I recognized something above the average Mexican and later I learned that he was the "black sheep" of a good family. He had been "secretario particular" to Gen. Luis Torres, military governor of the Northern zone of Mexico, including Lower California, Sonora, Sinaloa and part of Chihuahua.

"He had married a prospective heiress, but her death canceled his obtaining her money and he then went into the railroad business. He wrote an excellent hand and during the Madero revolution displayed no interest in either side."

"He handled trains for the government and insurrectos equally well. The correspondent of this paper refers to him as a drinking man but I never knew him to take a drink while in my service. He was neat in dress and his training as private secretary for General Torres enabled him to obtain later a place on Villa's staff. He is now in charge of the transportation of all of Villa's troops."—Chillicothe News.

## DEADLY PLANT NATIVE OF OHIO

Washington, D. C., April 17.—Although the roots of the plant known as the "water hemlock" contain a deadly poison, its tops and seeds in hay will not harm cattle, according to scientists of the United States Department of Agriculture. These scientists, whose specialty it is to investigate plants from which drugs and poisons are taken, have been compiling data on this plant, which is one of the most deadly known to America.

Besides its scientific name "Cicuta" and its more popular name "water hemlock" the plant is known in various localities as "cowbane," "wild parsley," "snakeroot," "spotted hemlock," "snakeweed," and "beaver poison." In New Mexico it has been known as "pecos." The plant has also popular German names, as it is found in Germany.

The plants grow in wet places such as swamps and irrigating ditches in nearly all of our Northern and Western states, including Ohio. When the root of the plant is cut open drops of an aromatic oil are seen. These give the root a peculiar odor and are popularly thought to be the source of the poison. The poison is indeed in the root, but is secreted in the form of a resin which is distinct from the oil. Although the poison is most deadly, the fact that it is confined to the roots rather than extending to the tops and seeds accounts for the fact that it causes but comparatively few deaths. The total loss from such weeds as "loco" and "larkspur" is much greater.

Its Natural Place.  
"In what court will that electrical case be tried?" "Why, naturally, in the circuit court."—Exchange.

the careful report of the English Board of Trade, 1912, shows us with a sort of absolute certainty how profound are the limits within which those agencies must work. Though older profit sharers thought they were to have the whole future to themselves. As against these, consumers' co-operation is with equal certainty to have (as it is actually having) a vastly wider influence. But it seems to me clear that the socialistic claim for its universality is without much solid ground.

"When a pronounced and able group of English socialists put out a document in the present year with the following paragraph:

"There is in the nature of things no reason why in a state of economic equality one individual should not exchange his commodity or service for the commodity or service of another individual, if he prefers to do so, without entering into co-operative processes; retaining like the artist, complete freedom to produce for one customer after another to whatever extent and in whatever manner, we have the frankest admission that co-operation, as well as socialism proper, is to have its limits.

"Co-operation lifts the level of the competitive struggle; it makes it fairer! it humanizes it, but does not remove it. Or, to put it more concretely in terms of another limitation which must be reckoned with—it is a limit that has both an immediate practical interest as well as a speculative one of even more importance.

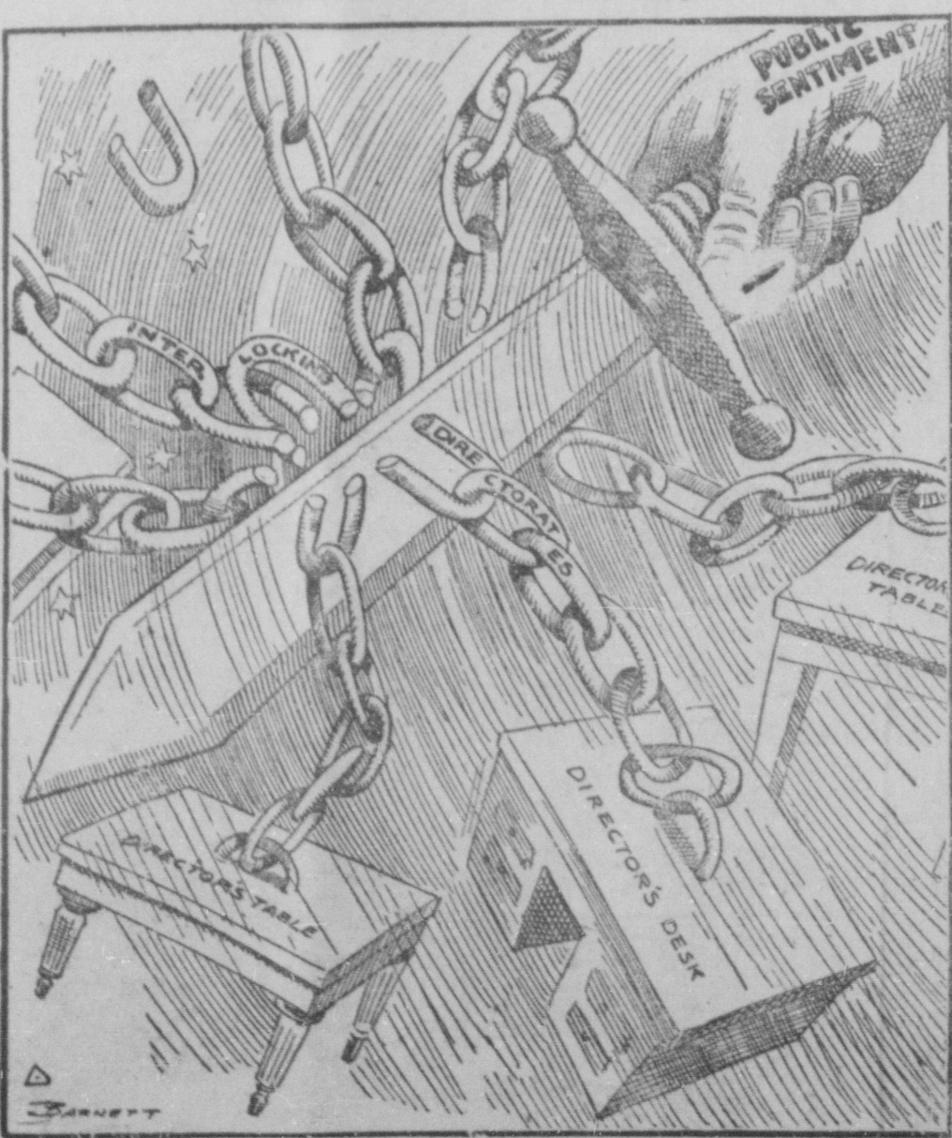

"Every effective co-operative center instantly reacts upon local retail prices. Co-operative literature in many countries presents the most startling tables to illustrate what may be saved by pocketing the difference between retail prices (especially at points where there is little competition or practical agreement on prices) and what products might be sold for. In Europe generally the purchasers of fertilizers, seeds, instruments, were mulcted around 40 per cent, and besides the thievery of adulteration.

"As in the successful store movement, co-operation brings these prices at once to fairly reasonable limits and often puts out of business inefficient retailers who could exist only by these crude exploitations. Again and again, as these prices are dropped to meet the invading co-operators, one sees the tug of war begin. A Canadian store reports: 'We had a magnificent showing the first year. We made prices tumble all about us, but since then we haven't had much to show.' Co-operators on the Pacific coast have had plenty of experience of this same sort.

"It is, of course, one of the glories of co-operation that it does bring down the prices and keep them down—a result for which co-operation often gets scant credit; but when this margin of unfair prices has been brought down, the real limits within which co-operators have to act is reached, and they are fairly pitted against opponents ready to try wits and efficiencies against so-called democratic business. There are thousands of these vigorous individualists, even in Danish bacon, butter and eggs, and in the English store movement, who do not ear co-operators in the least.

"We do not think of the socialized post office as a part of co-operation. Co-operation will do business with it as with the state railways, telephones and other monopolies which have finally passed out of private hands; but the rise and extension of the con-

# AUTOS MAY USE DRIVEWAYS IN WASHINGTON CEMETERY

Beginning Next Week Rules Regulating Local Cemetery Will be Changed to Admit Automobiles Under Certain Restrictions—Change Is Experiment Which Will Become Permanent If Drivers of Machines Adhere to the Rules.

Yielding to a demand which has been constantly growing, the trustees of the Washington cemetery have decided to try an experiment in allowing automobiles to enter the cemetery, and if the experiment is successful, the privilege will then be made permanent.

Heretofore, no automobiles have been allowed within the cemetery gates, but, beginning next week, the trustees will permit autos to use the driveways, providing certain restrictions are observed to the letter, it being necessary to have the restrictions in order that the privilege will not be abused by careless drivers.

Upon entering the grounds, all au-

tomobiles must run with closed mufflers, and in no instance must the speed be greater than eight miles per hour.

Certain routes in the cemetery must be observed, and autos be driven in one direction. The route will be indicated by pointers placed at frequent intervals.

Only two stops will be permitted, one at the mound and the other at the vault. Persons desiring to go further into the cemetery must then get out of their machines and walk. The two stops were decided upon in order that no driveway be blocked by the promiscuous stopping of machines, as the driveways are not of sufficient width to permit another vehicle to pass when a machine is stopped in the roadway.

If the restrictions are observed, the privilege will become permanent, but if the rules are violated, the cemetery will once more become closed to machines.

For several years permission has been sought to have the rules changed to permit machines to enter the grounds.

## WHERE IS PITNER? LETTER FOR HIM

In the list of advertised letters at the local postoffice is a letter for Harry Pitner, the man who was arrested near Jeffersonville for stealing a suitcase, and who was dubbed the "man of mystery" owing to his many curious acts.

When arrested Pitner gave the name of Pittman, later changing this to another name. He was identified as the man who had been lurking about about Jeffersonville for some time previous to his arrest, and who had some weeks before advertised in the newspapers for a wife. It was later learned that he lived near Mt. Sterling, and that a Jeffersonville woman had answered his letters—thus accounting for his presence at Jeffersonville.

He was taken to Jamestown for trial on a charge of theft, and a well-to-do brother from Columbus came to his rescue and he was released. The presence of the letter in the local postoffice would indicate that Pitner has been or is now in this community.

## BULLETS STOP HORSE RACING

Tulsa, Okla., April 17.—Martial law is supreme in Tulsa, and in the absence of any action on the part of the Criminal Court of Appeals at Oklahoma City enjoining Governor Cruce and Adjutant General Canton from taking charge of the local race track, the management of the Tulsa Jockey club acknowledged defeat and permanently declared the race meeting off.

Governor Cruce was so advised by attorney for the track management, but he has not issued orders lifting martial law rule from the fair grounds. The troops, as far as can be learned will remain here until to day.

Following the bold defiance of the track men in running the first race, which finished in a shower of bullets, the club stated yesterday that they would attempt to race again in the afternoon. Adjutant General Canton immediately ordered cables strung across the track in a dozen places, and stationed guards at each cable with instructions to shoot if necessary to prevent their removal.

The Tulsa Jockey club stated yesterday that they will bring suit for \$50,000 damages against Governor Cruce and Adjutant General Canton.

## CONGREGATIONAL MEETING ONE OF UNUSUAL INTEREST

Pastor's Salary Increased, Call Given to Assistant Pastor—Improvements Authorized, and Reports Show Church in Very Best of Condition—Officers Re-elected and Other Business Conducted.

At the annual congregational meeting of the First Presbyterian church Thursday evening, a number of important matters were considered and acted upon by the congregation, including an increase in salary for the pastor, Rev. W. B. Gage; the employment of an assistant pastor, and giving the deacons authority to make substantial improvements in the church building.

The meeting was opened by Rev. Gage, after which Mr. George Jackson took charge as chairman. A large number of the members were in attendance and took an active part in the proceedings.

The church is now believed to be the largest in the Chillicothe Presbytery and the number of accessions

to the church to be in splendid condition, with 738 active members—the largest number ever recorded by the church. The church is entirely free from debt.

Improvements in the way of reconstructing the pipe organ was authorized, the expense carried with it totaling upward of \$2000.

The increase in the pastor's salary was voted unanimously, and comes as a recognition of the ability displayed by Rev. Gage during his short pastorate in this city.

A call was extended to Dr. P. J. Herpes to accept the new position created—that of assistant pastor, and it is believed the call will be accepted by Rev. Henness.

Messrs. Joe N. Wilson and A. J. Walker were re-elected to the board of deacons, and Mr. J. T. Tuttle was re-elected treasurer.

## In Social Circles

A particularly delightful affair of the Sugar Grove neighborhood was the reception given Thursday night by the Sugar Grove W. C. T. U. in compliment to Mrs. Carrie Flatter, state W. C. T. U. organizer and lecturer, at the home of Mrs. Clark Post, president of the Sugar Grove Union.

Sixty men and women responded to the invitations and enjoyed the hospitality of their entertainers to the fullest extent.

The Post home was elaborately decorated with flags and flowers, the colors of temperance and suffrage, orange and white, tastefully employed.

The color scheme was also pretty in the delicious refreshments served.

Mrs. Post and Mrs. Flatter received, assisted by Mrs. Frank E. Haines and Mrs. Bruce Pine. Assisting in the dining room, were Mesdames Relia Silcott, Dulce Elliott, Nora Haines, Misses Iva Haines, Grace and Hazel Post.

The attractive young waitresses wore yellow caps and gowns.

Mrs. Flatter made a charming talk during the evening and a petition asking for a referendum vote on the suffrage question was circulated. Every man present signed it.

Miss Janet Stutson gave pleasurable entertainment to the Thursday afternoon Bridge club today.

The Ladies' Aid Society of the Church of Christ held an enjoyable meeting at the home of Mrs. Jennie Mark yesterday afternoon.

Characterized by charming appointments and altogether one of the handsomest affairs of the season was the Bridge luncheon given by Mrs. D. T. McLean, in compliment to her guest, Mrs. Tabitha Hunsicker, of Williamsport.

The perfect day brought out an unusual number of smart spring toiletts, which gave the finishing touch to the spring-time suggestions most artistically carried out by the hostess.

Yellow jonquils and greenery beautified the luncheon tables, at which were seated sixty matrons and girls, and the yellow and green color scheme was effectively introduced in the elaborate courses of the luncheon.

After the luncheon the tables were cleared for the Bridge game, in which Mrs. Ella Courts won the favor, an

exquisite corsage bouquet of yellow rosebuds and snap dragons. The guest of honor was also presented with a similar corsage bouquet, the favors all the more appreciated from the winsome grace with which they were presented by the pretty little daughter of the house, Mary McLean.

Assisting Mrs. McLean in the afternoon's hospitalities were Mrs. Earl Cockerill and Miss Lavon Cockerill.

Mrs. McLean was wearing a becoming gown of pale green.

Mrs. Hunsicker's striking blonde type was well set off by a stunning imported gown of heliotrope French crepe with real lace and gold embroidery.

Mrs. William Fisher, of Wilmington, and Mrs. Earl Cockerill, of Dayton, were additional out-of-town guests.

Caterers Woodson and Easton served the luncheon.

Mrs. Frank Perrill gave hospitable entertainment to the "500" club Thursday afternoon.

# VILLAIN IN DANGER

Last of Federals Driven From the Laguna District.

El Paso, Tex., April 17.—The last of the federals in the Laguna district have been driven out, but General Pancho Villa came near being captured, according to a message received in Juarez from Major Rogus Gonzales Garza, to his brother.

The telegram was dated at Torreon and declared that "It is our belief that we will be able to keep the federals, formerly comprising the Torreon garrison and the reinforcements that came to their aid from escaping either to Saitillo or Monterrey. Our forces under General Gutierrez inflicted heavy defeat at the station of Venado on the last of the federal reinforcements sent into this district to attack General Villa's command at Torreon. These reinforcements came from San Luis Potosi and are cut off from retreat."

General Villa was in a very tight fix in the fighting, but was saved by the cool-headedness of General Angeles. Villa personally led some of his troops in a charge during the fighting. He became surrounded, and only the military ability of Angeles extricated him and prevented his capture by the federals, according to a supplementary report.

## ASTOR WEDDING IS POSTPONED

New York, April 17.—Mr. and Mrs. Robert P. Huntington of Staatsburg announced that the wedding of their daughter, Miss Helen Dinsmore Huntington, and Vincent Astor would be postponed indefinitely. No invitations will be sent out until Mr. Astor has fully recovered from his present illness. The wedding had been set for April 30. The engagement of Mr. Astor and Miss Huntington was announced on Nov. 8 last. Hopeland House, the estate of Mr. and Mrs. Huntington, adjoins that which Mr. Astor inherited from his father, the late John Jacob Astor, who died two years ago in the Titanic disaster. He and Miss Huntington have known each other since childhood. Mr. Astor, who is suffering from congestion of the lungs, is reported to be improving.

Fox, Toledo, was elected supreme representative; Thomas Butterworth, Cincinnati, supreme recorder; Lucin Seymour, Cleveland, secretary; W. H. Beebe, Ravenna, grand treasurer. Akron gets the next convention.

## BLEASE DEFIES

Refuses to Muster Out Companies Held Delinquent.

Columbia, S. C., April 17.—Secretary of War Garrison informed Governor Cole L. Bleasle that unless Mr. Bleasle retracted certain statements in a letter to Mr. Garrison which the secretary deemed offensive, he would revoke his order for the holding of militia maneuvers by the militia of four states in conjunction with United States regulars on the Isle of Palms, near Charleston, this summer.

Governor Bleasle last year refused to muster out militia companies which failed to meet the requirements of the war department under the Pick law, and in consequence Secretary Garrison withdrew all federal aid from the South Carolina National Guard.

When informed of this action Governor Bleasle exclaimed that he thanked God that South Carolina was at last free from "Yankee domination." However, Governor Bleasle was led to reconsider his determination and the matter was adjusted by Secretary Garrison's agreeing to give the delinquent companies another chance. Three of them have again failed to meet the federal requirements and were ordered mustered out. Governor Bleasle has again flatly refused to muster them out, and in consequence the war department issued an order withdrawing federal aid from these three companies. Governor Bleasle declared he would not retract his statement concerning Secretary Garrison.

## BOOZE IS NOT LOCAL ISSUE

Washington, April 17.—A delegation of prohibitionists had a hearing before the senate judiciary committee. Senator Borah of Idaho told them they would have to bring information to convince senators that a constitutional amendment for nation-wide prohibition was the most effective way of dealing with the liquor traffic or the committee would not consider a resolution submitting such an amendment to the senate for ratification.

Responding for the prohibitionists, Dr. James Cannon, Jr., superintendent of the Virginia Anti-Saloon league, said that prohibition was no longer a local issue. He said the entire nation was aroused, and that where so many people throughout the country were desirous of voting on a question congress ought to afford them the opportunity. Several other speakers were heard.

## TALKS TO MILLERS

Columbus, O., April 17.—"Ohio Products for Ohio Consumption" was the subject of an address today by A. P. Sandles, president of the state agricultural commission, before members of the Ohio Millers' association, in convention here. The convention was called to order by Lee F. Graybill of Massillon, president. There is a good attendance.

## DRY DEMAND

Cincinnati, O., April 17.—Superintendent S. A. Probst of the Anti-Saloon league announced he will demand a thorough review by the grand jury of the methods employed by the wets in the local option election in Columbian township. The township voted wet by 395 to 172.

## DANIELS SETS MATTERS RIGHT

Philadelphia, April 17.—Secretary of State Bryan will not resign and Charge d'Affaires O'Shaughnessy will not be recalled from Mexico City, declared Secretary of the Navy Daniels in an interview here.

The celerity with which the Atlantic fleet has been prepared and dispatched to Mexico has impressed not only the United States, but all the nations of the world," continued Secretary Daniels. "From admirals to coal passers the personnel has displayed wonderful team work."

#### STRANGE APATHY.

American manufacturers have such a reputation for enterprise and business sagacity that it is strange to hear the many tales of their lack of it in the foreign trade. It is notorious that they have allowed Germany and England to run away with the business of most South American States. Less is known of their blunders in other sections of the world.

While a great export business has been built, there has been the same fatuous indifference to details that has marked the endeavor of the American manufacturer to break into the markets of Brazil and Argentina.

Last year the state railways of Egypt wanted a million dollars worth of rolling stock. The American consul general secured an invitation to Americans to bid, the first time such an opportunity had ever offered. There was a correspondence, marked it is said by "un-American apathy," and the contract was finally divided up among Belgium, German and English manufacturers. The Americans did not even bid.

The man who narrates this slovenly piece of business says that if a competent man had been sent to Egypt at once and had shown the proper enthusiasm and interest, there could be no doubt of the ability of the American firm to get the contracts, and to have a good chance at \$6,000,000 more that is coming shortly.

Incidentally, it should be understood that the future prospects of Egypt are second to those of no country in the world. A wonderful development is taking place in that ancient land. There are magnificent trade possibilities opening every day.

The indifference that has characterized most American manufacturers is hard to understand. Possibly it is because there has been enough business at home to justify reasonable expansion.

It is barely possible, too, that the protective tariff, once a needed nurse, came to be a coddling influence that deadened initiative when foreign trade was considered. The manufacturer knew that he was protected against foreign competition, and devoted all his time to developing the home trade, and fighting his competitors to get it.

It cannot be doubted that in many instances protection was actually an injury to business it was designed to benefit.—Dayton News.

## PORTLAND CEMENT

The final figures for the Portland cement industry in 1913 show a production of 92,097,131 barrels, shipments of 88,689,377 barrels and stocks on hand 11,220,328 barrels. It is somewhat interesting to compare these figures with the estimates made by the Geological Survey on January 15. These estimates were as follows: Production 92,406,000 barrels, shipments 88,853,000 barrels and stocks on hand 11,375,000 barrels, the percentage of error ranging from only .003 in production to about .01 in stocks on hand.

# DEAL NOW ON IN DETROIT FOR SALE OF GRASSHOPPER

Blue Prints and Other Data Just Completed to be Used in Sale of Road Which is 32 Miles Long and Has 31 Bridges—Direct Traction Road From Columbus to Cincinnati Seen in Deal Now Pending.

A deal is now on in Detroit for the sale of the Grasshopper division of the D. T. & I. railroad, to either one of the electric companies or to one of the steam roads operating in this part of Ohio, and within a short time negotiations are expected to be closed whereby the Grasshopper passes into other hands and will undergo wonderful transformation in the way of improvements and changes, so that the points touched by the road will really enjoy satisfactory service, either electric or steam.

Blue prints of the entire 32 miles of the Grasshopper, have just been completed, and are now in the hands of the officials of the road at Detroit, or will be within a short time. The blue prints show 31 bridges on the road.

It is generally understood that the road is to be converted into an electric line, and extended at both terminals so that it will form a connecting link between two of the principal electric lines, and itself become a much used and serviceable line.

## CASE CONTINUED UNTIL MONDAY

Hearing the charges against Kline by McCartney, who is accused of shooting Roscoe Vivens one night some two months ago, occupied Mayor Coffey's court part of Friday morning and after the examination of several witnesses the case was continued over until next Monday.

Homer Bowen, companion of McCartney, testified that upon the night in question he and McCartney met Roscoe Vivens and two other colored fellows, and alleges that himself and McCartney were jostled off the sidewalk into the snow, and that following an altercation one of the men drew a knife and started toward the two when McCartney used his gun.

Vivens denied that himself and companions had crowded the two fellows off the sidewalk. He could not positively identify McCartney as the man who did the shooting.

McCartney did not testify. Other witnesses will probably be placed upon the stand when the case again comes up for hearing.

Bowen was released from custody, and McCartney was returned to the county jail to await further hearing.

## ICEMAN GETS BUSY CAPACITY INCREASED

With the approach of summer-like weather, there has been a constantly growing demand for ice, and the sales are increasing rapidly, necessitating a greater output at the local factory than was produced during the winter.

Manager Baer is now running the Washington Ice Factory at 18 tons per day capacity, but later on expects to increase the output to full capacity—35 tons per day.

## PARK SEATS OUT

With the warm weather, demand for easy seats on the court house lawn resulted in the park benches being placed out as usual, Thursday.

The seats will be along the west side of the court house lawn as heretofore.

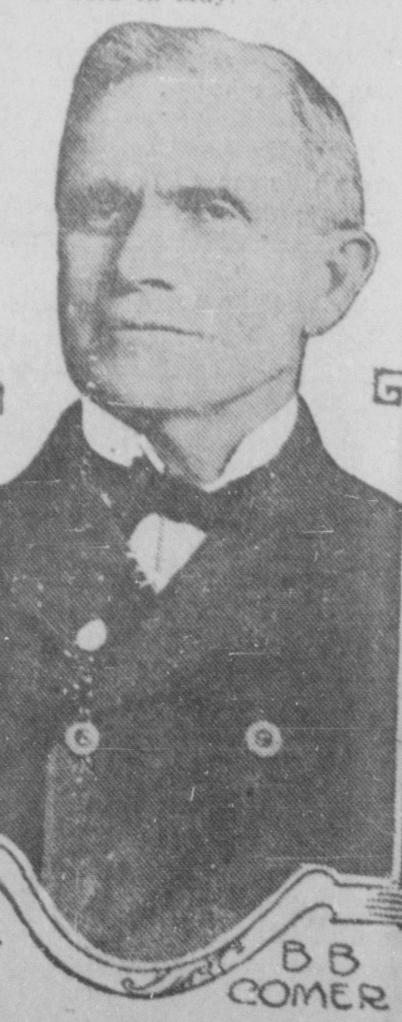

## DIES IN WEST

Mr. Asbury Craig, aged 68 years, brother of Judge T. N. Craig, of this city, died Tuesday at his home in Osborn, Kan.

## COMER WILL RUN AGAIN IN ALABAMA

### PRIMARIES IN MAY

Birmingham, Ala., April 17.—B. B. Comer, a prominent business man, was the leader in the gubernatorial primaries, but failed to get a majority of all the votes cast. Therefore a new primary must be held, according to the Alabama primary law. Comer will run again at the primary, which will be held in May.

## ADJUDGED INSANE

He had been ill for several years. Interment was made at Osborn.

The deceased was born in Fayette county, but had spent most of his life in the West.

## ACTOR DEAD

By Associated Press.

San Francisco, April 17.—McKee Rankin, veteran character actor, identified with Nance O'Neill for many years in Shakespearean productions, died here today.

## INSPECTION TRAIN ON PENNSYLVANIA

A special train carrying five private cars with a large number of officials of the road, went through this city on the Pennsylvania railroad, Thursday afternoon, on the annual inspection trip.

The train was headed toward Cincinnati, and the inspection of the local branch is only a small part of the general inspection carried on by the officials.

The local branch of the road, although handling comparatively light trains, is in splendid condition through this county.

## WATER RUINING STATE BUILDINGS

Albany, N. Y., April 17.—Water

threatens the partial destruction of New York's new \$4,000,000 state library as fire wrecked the old one in 1911. For nearly a week a two-inch stream has been spouting through the \$25,000 hydrolic collar floor. The geyser has become so persistently powerful that two big pumps are fighting it night and day with little appreciable effect.

It has been discovered that ground to the north of the great structure has sunk several feet. State Architect Pilcher informed Governor Glynn. He immediately wired Contractors Palmer, Hornstobel & Jones, of Boston, who built the library, to get on the job quick.

As yet neither Pilcher nor any engineer has been able to ascertain the source of the water. No fissures in the walls had appeared. But as both the Capitol and Library were built on sand heaps, an even bigger flood is looked for unless the course of the stream can be diverted.

## WHITE WOLF ROUTED

Peking, China, April 17.—Regular troops severely defeated "White Wolf" and his brigands, several hundred of whom were killed.

The troops encountered the bandit army at Li Chuan-Hsien, northwest of Sian-Fu. After a sharp engagement the brigands fled to a position 20 miles from Kien-Chow, further northwest.

Heavy re-enforcements of regulars have been dispatched to the scene, and the brigands, who have pillaged many towns and villages and killed the inhabitants, are being gradually surrounded.
